Occupational Health and Safety Policy

The Company's Occupational, Health and Safety (OHS) Policy is as follows:

The Company is committed to achieving excellence in project quality delivered to clients while at the same time, aims to provide a safe and healthy workplace for all personnel and continually improve our workplace safety by adhering to the following principles:

- Working towards a culture of safety and accident-free workplace at all times.
- Comply with all occupational health and safety, regulatory and other contractual requirements.
- Adoption of good and safe practices to minimise Lost Time Injury due to incidents of injuries and ill health resulting from accidents and incidences; as well as to enforce good safety habits for all affected persons working at the affected worksites and reduce incidences caused by inappropriate use of Personal Protective Equipment (PPE).
- Ensuring that all service vehicles and technicians are provided with relevant PPE at all times to complete jobs in safe working conditions.
- Encourage or influence our clients and sub-contractors to promote workplace safety awareness and responsibility through the adoption of safe work design with the aim of reducing injuries at all affected worksites.
- Provide awareness on safety issues for all persons working for the organisation with the intent that they are made aware of their OHS obligations.
- Committed to the continual improvement of our occupational, health and safety performance through effective objectives and targets.

This OHS Policy shall be committed to by all affected persons working for the organisation, making available to any interested parties and shall be reviewed periodically to ensure it remains relevant and appropriate to the organisation.
